

What is claimed is:

1. A friendship object kit comprising at least a pair of friendship objects that are packaged and sold together, where a first one of the friendship objects is for a first person to keep and second one of the friendship objects is for a second person to receive from the first person, the pair of friendship objects each comprising a connector mechanism associated with it so that multiple friendship objects from different pairs of friendship objects can be linked together by one person.
2. The friendship object kit of claim 1 wherein the objects are plush animal-shaped objects.
3. The friendship object kit of claim 1 wherein the objects are animal-shaped objects.
4. The friendship object kit of claim 1 wherein the connector mechanism comprises at least a jewelry clasp.
5. The friendship object kit of claim 1 wherein the connector mechanism comprises hook and loop fastener material.
6. The friendship object kit of claim 1 wherein at least the second one of the friendship objects is personalized by the first person before receipt by the second person.
7. The friendship object kit of claim 1 wherein the friendship object is personalized by a visual message.
8. The friendship object kit of claim 1 wherein the friendship object is personalized by an audible message.

9. The friendship object kit of claim 1 wherein the friendship object comprises a voice recording and playback mechanism to enable a friendship object to be personalized by an audible message.
10. The friendship object kit of claim 1 wherein a recipient of multiple friendship objects can connect the friendship objects together via the connector mechanisms of the respective friendship objects.
11. The friendship object kit of claim 1 wherein a recipient of multiple friendship objects can connect the friendship objects together to form a wearable article.
12. The friendship object kit of claim 1 wherein a recipient of multiple friendship objects can connect the friendship objects together via the connector mechanisms of the respective friendship objects to form a wearable article.
13. The friendship object kit of claim 1 wherein the friendship objects are substantially similar.
14. The friendship object kit of claim 1, wherein the friendship objects are complimentary.
15. The friendship object kit of claim 14 wherein the friendship objects are complimentary to create a static synergistic effect when brought close together or in contact.
16. The friendship object kit of claim 14 wherein the friendship objects are complementary to create a dynamic synergistic effect when brought close together or in contact.
